

PRASANTHI ADAPA

Computer Science Engineering Student | Software Developer

+91 6300136244 | prasanthia06@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Final-year Computer Science and Engineering student and aspiring Software Developer with hands-on experience building web applications using Python, Django, Flask, JavaScript, HTML, CSS, and SQL. Experienced in developing coding platforms, AI-powered applications, and database-driven systems. Strong foundation in problem solving, REST APIs, software development, and version control with a focus on building practical and user-friendly solutions.

EDUCATION

B.Tech in Computer Science and Engineering | Kakinada Institute of Engineering and Technology Expected 2027

CGPA: **7.95/10**

AP, India

Intermediate (MPC) | AP Model Junior College

2021 – 2023

Percentage: **85%**

AP, India

SSC | ZP High School

2017 – 2021

Percentage: **85%**

AP, India

TECHNICAL SKILLS

Programming: Python, C, JavaScript
Web Development: HTML5, CSS3, Bootstrap, Responsive Web Design
Frameworks: Django, Flask, Tkinter
Libraries: NumPy, Pandas
Databases: MySQL, SQLite
Tools: Git, GitHub, VS Code, Google Colab, Anaconda
Core Skills: Data Structures, OOP, Problem Solving, REST APIs, Software Development

CERTIFICATIONS

- Python Programming – Infosys Springboard
- SQL and Relational Databases 101 – IBM
- Generative AI – LinkedIn Learning
- IR4.0 Technologies – Microsoft
- Java Full Stack Developer – EduSkills
- AI/ML – EduSkills
- Machine Learning – IIIT Hyderabad
- Python Programming – Skill India

EXPERIENCE

Foundations of Modern Machine Learning Intern | IIIT Hyderabad

Jul 2024 – Apr 2025

Online Food Ordering System

[GitHub](#)

- Developed a full-stack Food Ordering System using Python, Django, HTML, CSS, JavaScript, and SQLite.
- Implemented authentication, restaurant and food-item management, order processing, and database-driven functionality.
- Designed responsive interfaces and deployed the application using PythonAnywhere for online accessibility.
- Implemented CRUD operations for managing restaurants, menu items, users, and orders.

PROJECTS

CodeMaster -Online Coding Platform

[GitHub](#)

- Built a web-based coding platform using Python, Flask, HTML, CSS, and JavaScript with an interactive coding environment.
- Integrated Monaco Editor and implemented coding problems, authentication, scoring, progress tracking, and multi-language execution.

AI Chatbot -AI-Powered Web Application

[GitHub](#)

- Developed an AI chatbot using Python, Flask, HTML, CSS, and JavaScript with API-based conversational capabilities.
- Implemented AI responses, coding assistance, chat history, voice input, file analysis, and code formatting.

Developer Portfolio -Responsive Web Application

[GitHub](#)

- Designed and developed a responsive portfolio using HTML, CSS, and JavaScript to showcase projects, skills, certifications, and education.
- Designed a modern and user-friendly interface with smooth navigation and responsive layouts for different devices.

Music Player -Interactive Web Application

[GitHub](#)

- Built a responsive music player using HTML, CSS, and JavaScript with playlist, playback, volume, previous, and next controls.
- Implemented an interactive and responsive UI using HTML, CSS, and JavaScript for a smooth music-listening experience.
