Objective

Motivated and enthusiastic Computer Science student seeking an entry-level position or internship in the IT industry where I can apply my technical knowledge, problem-solving abilities, and passion for software development. Eager to learn new technologies, contribute to innovative projects, and grow professionally through continuous learning and practical experience.

Education

B.Tech in Computer Science

Kakinada Institute of Engineering and Technology

CGPA: 8.5/10

Expected 2027

AP, India

Intermediate (MPC)

AP Model Junior College

Percentage: 95%

2021 – 2023

AP, India

10th

ZP High School

Percentage: 98%

2017 – 2021

AP, India

Skills

Programming Languages C, Python, HTML, CSS, JavaScript

Frameworks/Libraries Bootstrap, Django, NumPy, Pandas, Tkinter

Databases MySQL, SQLite

Developer Tools Git/GitHub, Google Colab, VS Code, Anaconda

Certifications AIML, Java Full Stack Developer (EduSkills), Python (Infosys Springboard), SQL and Relational Databases 101 (IBM), Python Programming (Skill India), What is Generative AI? (LinkedIn Learning), Machine Learning (IIIT Hyderabad)([View](#))

Experience

FMML and python programming Intern | IIIT Hyderabad

July 2024 – April 2025

- Developed a CODEMASTER using Python (Flask), HTML, CSS, and JavaScript for writing, editing, and executing code online.
- Integrated Monaco Editor to provide an interactive and efficient coding environment with features such as syntax highlighting and code editing.
- Implemented multi-language code execution through API integration, allowing users to compile and run programs in different programming languages. Added API-based coding assistance to help users with programming-related queries and improve their coding experience.
